International Accreditation Organization

Houston, U.S.A.

To assure students, public and other stakeholders that our establishment delivers quality education and skills, institutions need to get accredited. IAO's accreditation is a recognized symbol of quality and being associated with IAO, the education provider enjoys numerous benefits such as:

International accreditation:

IAO's accreditation is international in nature, which means that our educational establishment will be recognized and accepted on an international scale. Additionally, it will also enrich our profile on a regional level, resulting in increased student recruitments.

International Benchmark in Education Standards:

The score that an educational establishment gets under the Point Profile System of IAO ensures that the teaching criteria and teaching methods of the establishment can be easily compared with any other education provider of the same category in any part of the world. IAO's accreditation gives us a competitive edge over all regional and international education institutions.

International Promotion:

IAO's accreditation will serve as a platform for international promotion of our institution by IAO's participation in educational events and an online education portal. We can lure international students to come and take courses from our establishment in our region.

International Acceptability:

By virtue of the IAO's Point Profile System, our establishment's students will have increased acceptability around the world. IAO's accreditation is a mark that the teaching criteria and teaching methods of our establishment are up to the international standards of education and skills and thus students also enjoy the acceptance by the global corporate sector.

Endorsement of Students Credentials:

Our establishment's students will also have benefits from IAO's Point Profile System that are specially designed to endorse their professional credentials to improve their professional profiles. This will help them to achieve their career aspirations.

Introduction

Maharishi Dayanand Early Teachers Training & Education is registered under rules and regulation of Govt. of India act XXI, 1860 by a group of quite devoted highly qualified, experienced and educational experts student. We aim to provide vocational courses to educate unemployed students to enable them to get better employment and live a peaceful and respected life with the motive of early childhood education.

About the Course

In the Context of rapid Socio- economic development, the present education system is not adequate to meet the growing demands of the divers economy. Therefore, it is felt that there is much need for growing children to have better systematic education by proper trained teachers. Thus , the Teachers training should not be seen merely in terms of creating positive attitude towards work and general increase in the skill base, among the students, but also as a strategy for giving a full package of Competency, required for getting wages and self employment to meet the man power needs of various sectors.

MDETTE

Maharishi Dayanand Early Teachers Training & Education started NTT, PTT, NPTT courses all over India, with the help of co-operation of educational experts with a view to train unemployed educated girls/Boys particularly the girls/Boys of scheduled Caste, Scheduled tribes and Backward Class, so that they may impart education, based on modern, lines to Pre-school Children, with a stress on moral, intellectual, Physical & Social personality. As it was found, that there was no training for teachers in India for Pre-school going children education. The organization takes guidance form NCERT, New Delhi & Social Welfare Board (Govt. of India) Therefore, it is in line with research work at NCERT.

These two are the only genuine bodies for guidance and affiliation. At present various Study centre are running in different state of India under the able guidance of NCERT Educational experts. As a Non-Government Organization (NGO), MDETTE trying to make successful the vocational training programme of Social Welfare Board, Govt. of India, by imparting NTT, PTT, NPTT to unemployed educated students.

A Pen From Secretary

Teachers Vocational Training is held, as per guidance of NCERT, New Delhi, so that students when trained, get better jobs. Our project also aims to give elementary education to every mother & Sister all over that, in order to train them how to treat children Psychologically and how to inspire & motivate them so that they may develop interest in academic field by improving their potential for all around development in their personality.

The various convent, nursery and public schools send their demands for our trainee there teachers in advance and our trained teachers have been appointed in various schools at an attractive

salary keeping in view the growing population and poor literacy rate and plans of Indian Govt. The aim of the institution is to provide at least primary education to every citizen, Specially for students, It is because our object is to make students experts in child education Pre-primary school level, help unemployed educated girls & boys in becoming an ideal teacher for convents, public and nursery schools.

This diploma will help the lady / Gents teachers to get better job as lecturers in nursery school teacher training college. The English plays a very important role in English/Hindi medium school. -Regular classes are there to teach the trainees i.e how to read, write and speak in English are generally conducted.

Our trainees try to teach the children by play-way method, indoor and outdoor games, as they are perfect teacher to guide per school children and prepare student to treat children psychologically for their holistic development.

Objective

- ☞ To provide students (graduated and under graduates) with knowledge and skill which will enable them to nurture their families and guide their children more efficiently.
- ☞ To provide vocational training which will help them get jobs in the middle levels management.
- ☞ To educate them about social needs of the society/country and to awake a desire to serve in them.

Future Prospects

- ☞ With the change of Socio-economic scenario, a modern concept of play schools like Kindergarten & Montessori have come up which will rise to the demand teachers.
- ☞ Going with the present trends, more avenues are expected for the trained NTT,PTT,NPTT teachers than the raw hands.
- ☞ Further, some schools are proposing to sponsor their candidates to take training & in exchange to serve/teach in the same school for certain period of time after training.

Need of Training

The preschool age (3-5) is the most impressionable age in one's life. The effective teacher therefore should be aware of the principle of child development and need of the children, which are different from the primary and post primary children.

This is the reason we conduct training courses with utmost care giving due emphasis on child psychology of this age group.

The demand for nursery school and early childhood care is increasing day by day. Teachers who possess requisite qualification and training are in great demand.

Aims

The NTT, PTT, NPTT method of teaching aims are the complete development of the child, ultimately preparing him/her for life's various experiences.

Children pass through sensitive period of development early in life. Doctors described the child mind between the time of birth and six year of age as the 'absorbent mind'. It is during this stage that a child has a tremendous ability to learn and assimilate from the world around him, without conscious efforts. During this time, children are particularly receptive to certain external stimuli, NTT, PTT, NPTT teachers recognizes and take advantage of these highly perceptive stages through the introduction of materials and activities which are specially designed to stimulate the intellect. Encouraged to focus attention on one particular quality, the child works at his/her own optimum level in an environment where beauty and orderliness are emphasized and appreciated. A spontaneous love of 'work' is revealed as the child is given the freedom (within boundaries) to make his/her own choices.

The aims of NTT, PTT, NPTT programme is to prepare for pre-primary schools, so that they are able to :

- ❧ Develop an understanding of principles and processes of various aspects of child's growth and plan educational activities accordingly.
- ❧ Acquaint themselves with basic principles of early childhood care and education keeping in view the goals.
- ❧ Familiarize with method, equipments and material of early childhood care and education with their effective use.
- ❧ Understand importance of health, nutrition and welfare services for the child and the ability to nurture healthy habits, prepare nutritive and inexpensive meals and render first aid in case of minor injuries/accident
- ❧ Be aware about role of parents and community in education of pre-school and early primary school children.
- ❧ Develop an understanding of the various tools and techniques of child study.
- ❧ Organize, plan and implements school programmes.
- ❧ Develop the necessary ability and attitude toward acquire not only knowledge but also the basic skills of the profession.
- ❧ Enable the trainee to access and understand relevant information critically examine it and be able to apply meaningfully in day to day job situation.
- ❧ Be able to willingly accept, appreciate and tolerate difference among people life style and adjust in them and learn from them for enabling the trainee to live, work and grow as a member of group/team/community.
- ❧ Supplement the demand of ever expanding, job market.
